PROFESSIONAL SUMMARY

A Certified Energy Manager (CEM®) and Certified Measurement & Verification Professional (CMVP®) with over a decade of experience in electrical and energy engineering. I specialize in project management, telecom power systems, energy-efficient solutions, and technical operations across diverse infrastructure environments. Fluent in English and Arabic, committed to driving operational excellence and delivering measurable results through disciplined engineering practices.

EXPERIENCE

2019 – Present

Electrical Project Engineer

ACES · Riyadh

- Energy Manager & efficiency designer
- O&M Engineer for Mobily ENM Managed Services
- O&M Engineer for STC COW Managed Services
- Developed technical troubleshooting & maintenance documentation
- Improved telecom passive infrastructure performance
- Mentored junior engineers

2018 – 2019

Electrical Project Engineer

Absar · Riyadh

- Executed SEC unified-contract builds for 60+ MV/LV assets
- Installed RMUs, transformers, and mini-pillars
- Full commissioning & SEC handover
- SCADA monitoring & integration

2017 – 2018

Electrical Engineer

BEMCO

- Preventive maintenance for 11kV distribution networks
- Developed standardized testing & inspection manuals
- Handled NCR resolutions & technical documentation

2012 – 2017

Electrical Engineer

SEC Thermal Generation · Sudan

- Operations for 200 MW thermal generation block
- Wastewater treatment (PH meters / OC 4000 DCS)
- Maintenance for 11kV distribution systems

KEY PROJECTS

STC COW Network

O&M + energy optimization across 600+ telecom sites nationwide

Mobily ENM Managed Services

Full O&M, facility support & CAFM/BMS integration

Data Center Energy Audit

PUE improvement & energy savings assessment

SEC Unified Contract

60+ MV/LV installations & full SCADA commissioning

PP12 Thermal Generation

Operations of 200 MW plant with 11kV switching & DCS control

AI CO2 Dashboard

ML anomaly detection & CO2 footprint tracking dashboards

KEY ACCOMPLISHMENTS

- ◆ Reduced nationwide telecom site utility costs by up to **18%** through multi-phase energy optimization.
- ◆ Commissioned **60+ MV/LV assets** under SEC unified contracts with full SCADA integration.

POWER SYSTEMS

AI & DATA

FRONTEND

DESIGN

CERTIFICATIONS

- ◆ CMVP® — Certified Measurement & Verification Professional
- ◆ CEM® — Certified Energy Manager
- ◆ Machine Learning with Python
- ◆ Power BI Essential Training
- ◆ LEED Green Associate
- ◆ Learning Excel: Data Analysis
- ◆ Quality Engineering
- ◆ SCADA / PLC / DCS / RTU

EDUCATION

B.Sc. Electronic Engineering (Control)

El Neelain University

2007 – 2012

LANGUAGES

Arabic — Native

English — Professional

MEMBERSHIPS

Saudi Council of Engineers (SCE)

Sudanese Engineers Association (SEA)

AVAILABILITY

Sun–Thu: 8:00 AM – 6:00 PM

Weekends: On-call for urgent interventions

Ready for short-notice regional travel

◆ Delivered O&M coverage for STC COW & Mobily ENM networks with proactive outage prevention.

◆ Authored troubleshooting guides and automation routines reducing incident resolution time by **30%**.

◆ Developed AI-driven Energy & Environmental Dashboard tracking CO₂ emissions and power efficiency.

◆ Version-controlled documentation and templates using Git/GitHub workflows across multi-site networks.

"You never change things by fighting the existing reality. To change something, build a new model that makes the old one obsolete."
— R. Buckminster Fuller
